

Digital multimeter with RS232

MASTECH MAS343

★★★ 3 / 5

Digital multimeter with standard measuring ranges up to 750V AC, 1000V DC and PC RS232 connection.

38.1 €

(w/include VAT): 0 €

Product description

MASTECH MAS343 is digital Multimeter for measurements performing of standard and advanced electronic applications with integrated RS232 interface to transfer the measured results on a PC.

Features:

- Display count: 4000
- 38 segment bar graph
- Standard ranges: voltage, current, resistance, frequency, capacitance
- Auto range & manual range
- RS232C standard interface
- hFE test
- Diode and continuity test

Consisted of: MAS343, carrying bag, RS232 cable, Win software, test leads, manual.

Specifications

Digital display counts	4.000
AC Voltage	750 V
DC Voltage	1.000 V

AC Current	10 A
DC Current	10 A
Accuracy	0,5 %
Frequency	40 kHz
Resistance	40 MΩ
Capacity	0,4 μF
Conductivity	no
Duty-Cycle	No
HFE Test	yes
LowZ function	no
MIN/MAX function	No
HOLD function	yes
Bargraph display	yes
PC interface	Yes
Voltage category	CAT II 600V
